If You Mean No. Say No!

When a man has made up his mind to do or not to do a thing, he should have the pluck to say so, plainly and decidedly. It is a mistaken kindness, to meet a request which you have determined not to grant, possibly prevent his seeking what he requires in a more propitious quarter until after the golden opportunity is passed.— Moreover, it is questionable whether the motives for such equivocation are as some people suppose. Generally speaking, the individual thus avoids a direct refusal, does so to avert himself pain. # DO A GOOD TURN WHEN YOU

How little we think as we travel
Through life's ups and downs day by day,
What good each might do for his neighbor,
Did all of us go the right way;
How many a poor fellow whose talents
To elevate science would tend,
Is lost to the world's gaze forever,
And all for the want of a friend.
Then stretch forth your hand like a brother.

Tis our duty to help one another,
And do a good turn when we can.
